Whether you're an organization looking to mobilize your sales professionals or an individual looking to increase personal productivity, leaving your office or laptop behind does not have to mean leaving your crucial files and work behind. Documents To Go is a powerful word processing, spreadsheet, presentation and PDF application, all in one complete package, designed to help you get your work done no matter where you are. Since it is full featured yet easy to use, Documents To Go is one mobile office suite that makes good business sense. To learn how you can work smarter, save time and be more productive by having your most important files with you at all times, **install a free trial of Documents To Go on your smartphone today!**

## Powered by InTact Technology™

- 1 Original desktop document
- 2 Document is brought over to the smartphone. Data that can be displayed are shown. Other data such as headers and footers are stored.
- 3 Changes and edits are made on the smartphone
- 4 Changes and edits, along with the stored data are merged back into the original document so that all formatting remains "intact".
