

Beyond Contacts™

The Closest Thing To Outlook® For Your Handheld.

The True Outlook Companion For Your Handheld

Beyond Contacts provides everything you need in one package to manage your Outlook information, from appointments and contacts to e-mail and scheduling. Just sync and have all your Outlook fields for Calendar, Contacts, Tasks and Notes on the handheld – down to the very last detail.

- **Be Productive and Prepared** – Supports all the Outlook fields you use: multiple addresses, meeting attendees, birthdays and more!
- **Organize Your Data, Your Way** – Sync folders and subfolders for Calendar, Contacts, Tasks and Notes; group records using unlimited categories
- **5 Integrated Applications** – Easily move between Calendar, Contacts, Tasks, Notes plus your Inbox
- **Fast, Reliable Synchronization** – Always have the most accurate and current info in both Outlook and on your handheld

computers

The power of Outlook with nothing new to learn

Beyond Contacts provides the most robust solution to bring your Outlook data to your Palm OS handheld. It installs its own Outlook-like applications that are seamlessly integrated on the handheld, similar to Outlook on the desktop. Quickly access your Calendar, Contacts, Inbox, Tasks and Notes from anywhere within the application.

*Get a quick glance of your day ahead with
Beyond Contact's Today view:
Preview your next meeting or appointment and
the status of your Tasks and Inbox messages*

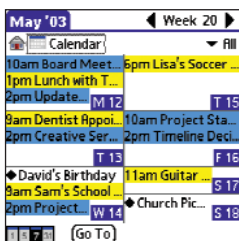

Finally, a way to take ALL your Outlook® info with you

Beyond Contacts is the most complete Contacts, Calendar, E-mail, Tasks and Notes manager for your handheld. It gives you so much more than any other Outlook synchronization tool including the look and feel of Outlook on your handheld. Plus, with support for MORE of the Outlook fields than any other solution, you can be assured that you'll have all the info you need at your fingertips, including meeting attendees, meeting location, multiple e-mail addresses and job title.

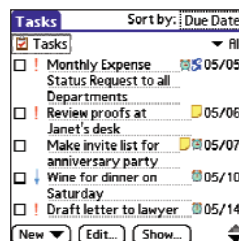

CALENDAR

Have accurate schedule info for events and appointments, including meeting location, attendee list and recurrence patterns. Create meeting requests; have the meeting invitations sent upon the next sync.

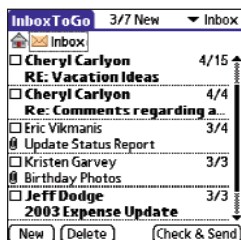

CONTACTS

All contact fields from Outlook are available, such as multiple phone numbers, nicknames, birthdays and more. Organize contacts via categories and sub-folders. Easily find contacts using "ABC" tabs.

TASKS

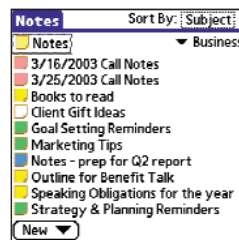

Easily prioritize tasks using Outlook-style organization. Keep on top of your open tasks by setting reminders and recurring tasks.

INBOX

Inbox To Go is a quick and useful way to sync your Inbox messages to your handheld. Plus, it is fully integrated with Documents To Go* for access to attachments including Word and Excel files.

*Requires Documents To Go v 4.005 or higher

NOTES

Color-code notes for better organization. Group notes using unlimited categories. Assign Notes and other records to multiple categories.

Why Choose Beyond Contacts?

- It's the only program to automatically sync all the fields from Outlook. There's no confusing setup process or custom field-mapping and, most importantly, you'll never be without that crucial piece of info!
- There's nothing new to learn! If you know Outlook, you already know Beyond Contacts!
- All the Beyond Contacts applications are seamlessly integrated so you won't waste time switching between applications.
- DataViz offers technical support from friendly, well-trained customer service representatives.
- Brought to you by DataViz, the makers of the #1 selling Documents To Go.
