## Documents To Go for Symbian UIQ

Documents To Go for UIQ is a revolutionary application that lets you view, edit and create real Microsoft Word and Excel files as well as view PowerPoint files on your Sony Ericsson or Motorola smartphone. InTact Technology, a groundbreaking technology, keeps all original document formatting "intact" no matter what you do to the file. Please see "About InTact Technology" for more details.

Supports embedded graphics, tables, footnotes/endnotes, auto bullets & numbers, comments & more.

**Supports**

	Sony Ericsson P800
	Sony Ericsson P900
	Sony Ericsson P910
	Motorola A925
	Motorola A1000

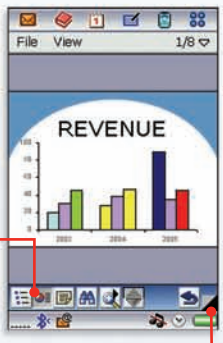

Supports 65,536 rows, 256 columns, insert & delete rows, columns & worksheets, sorting & more.

Font & paragraph formatting gives you a true word processing editing experience.

Cell formatting and support for over 110 functions makes spreadsheet editing a breeze.

3 available views: notes, outline and slide.

Full screen supports lets you see more of your files and presentations.

## InTact Technology<sup>™</sup>

Documents To Go for Symbian UIQ is the only product on the market today that retains all original file formatting for both Word AND Excel files which have been brought to the smartphone, edited and then brought back to the desktop. Developed from the ground up, InTact Technology gives you the freedom and confidence to share your important files with anyone – just as if you were sharing them using your desktop or laptop computer.

**1** Original desktop document with formatting such as embedded graphics, varying fonts and font sizes, footnotes, headers, comments, tables, colored text and more.

**2** Edits are made on the smartphone. In this example, the original text "Welcome!" was changed to "Welcome to Documents To Go!". In addition, font size was increased and font color was changed from blue to red.

**3** Edited document is brought back to the desktop. Notice text changes, font color and font size are updated. Most importantly, because of InTact Technology, ALL of the original desktop formatting is retained and kept "intact": embedded graphics, varying fonts and font sizes, footnotes, headers, comments, tables, colored text and more.

The "for Symbian OS" logo means the product has been tested in Symbian Signed. Symbian and the "for Symbian OS" logo are trademarks or registered trademarks of Symbian Software Ltd. For more information visit [www.symbiansigned.com](http://www.symbiansigned.com)
