PDF To Go®
High-fidelity viewing of Adobe PDF files
Supports: page view, word wrap, multiple zoom levels, auto-rotate, embedded images and more…

Getting Started

The main Documents To Go app lets you open Microsoft Word, Excel, PowerPoint and Adobe PDF files
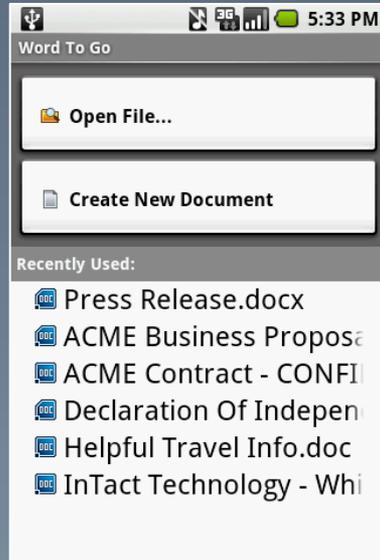

Each application will sort and display files depending on their type. Recently used files are always easily accessible
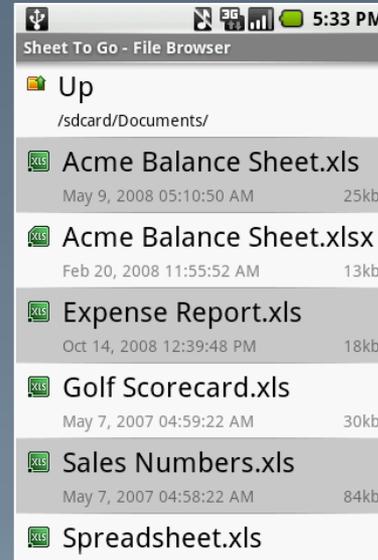

The built-in file browser allows you to explore the expansion card for supported documents and saved attachments

Send, receive and save attachments using RoadSync, Gmail and other popular e-mail programs

Additional premium features such as advanced viewing, editing and creating new files can be unlocked by purchasing the Documents To Go 'Full Version Key'

About InTact Technology

1 Pieces of data are pulled directly out of the desktop document.

2 Data that can be displayed on the handheld is shown. Other data such as headers and footers are stored.
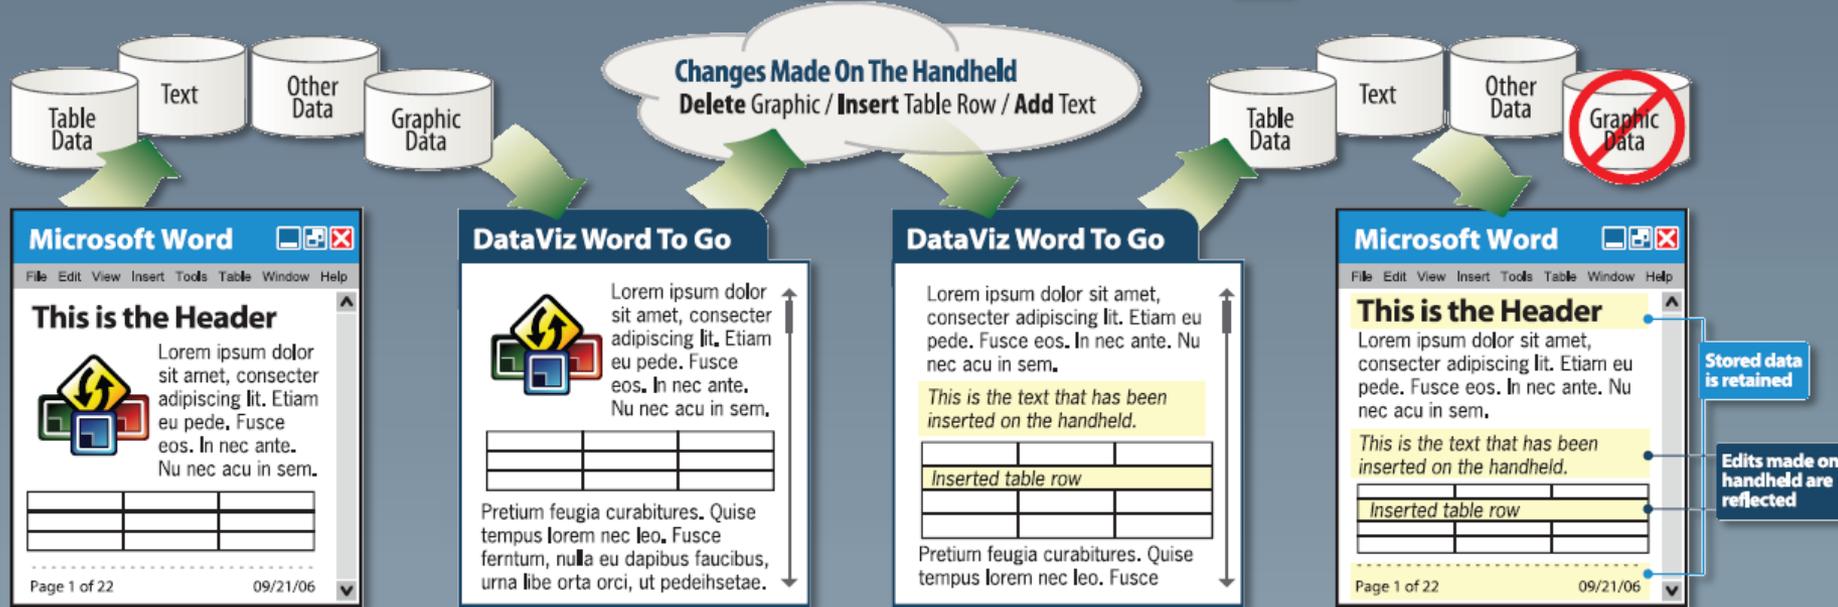

3 Edits are reflected in the display of the document on the handheld

4 Changes are merged with the stored data so the original file has all formatting "in tact".

Table Data · Text · Other Data · Graphic Data

Changes Made On The Handheld
Delete Graphic / **Insert** Table Row / **Add** Text
