

# **ROADSYNC™**

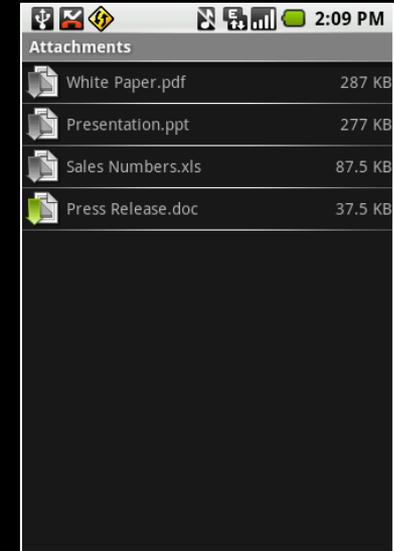

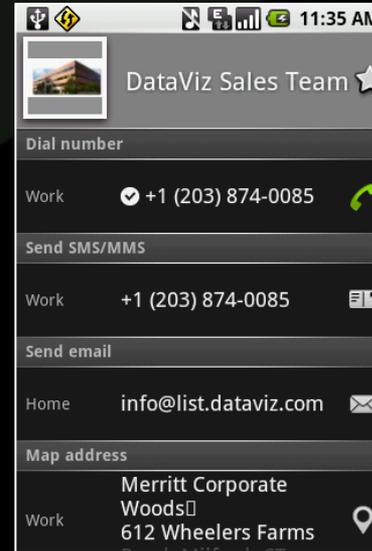

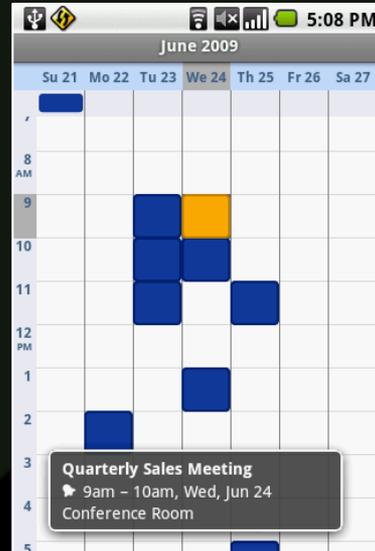

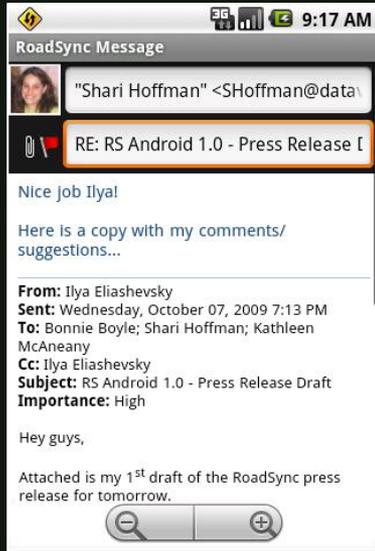

Using **Exchange ActiveSync®**

*Secure, Wireless and Direct Push Synchronization  
with Microsoft Exchange*

*Getting Started Guide*

# RoadSync at a Glance

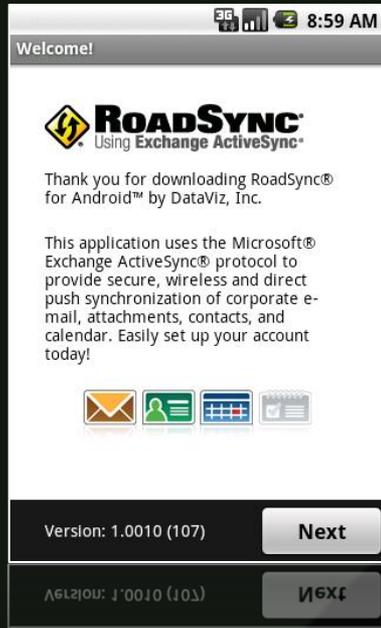

Richly view **HTML e-mail** w/ message flagging, priority & zoom. Quickly compose new messages w/ contact look-up & address auto-complete.

**Calendar** entries sync to the RoadSync Calendar app including multiple views, a home screen widget & meeting accept/decline.

**Contacts** sync to the built-in Contacts app w/ photos, multiple phone #s, e-mail and mailing addresses. Seamlessly integrates w/ Caller-ID & Google Maps.

Download **attachments** of all types. View, edit and send Microsoft Word, Excel and PowerPoint as well as view Adobe PDF files in Documents To Go.

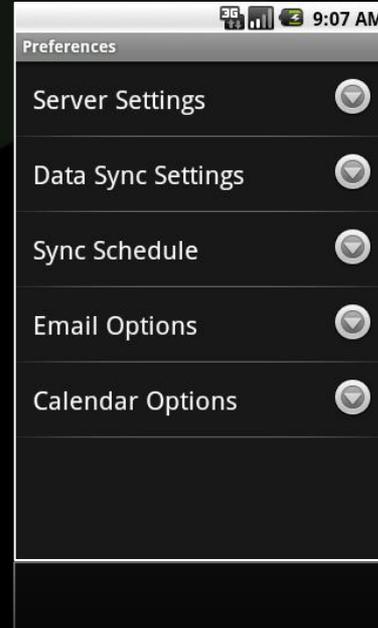

# Getting started

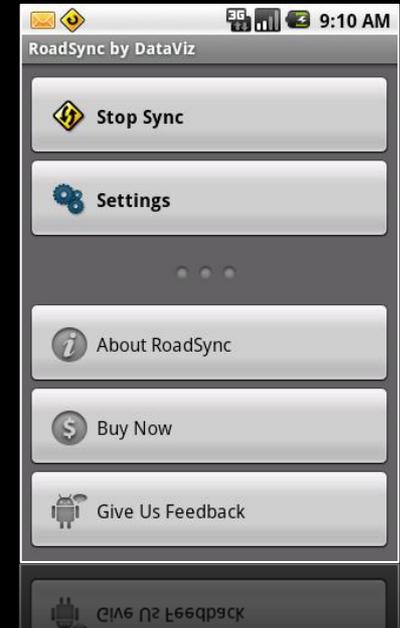

Follow our convenient First Use Wizard to easily setup your account

Simply enter your e-mail address & password and Auto-Discovery\* will try to locate your necessary settings

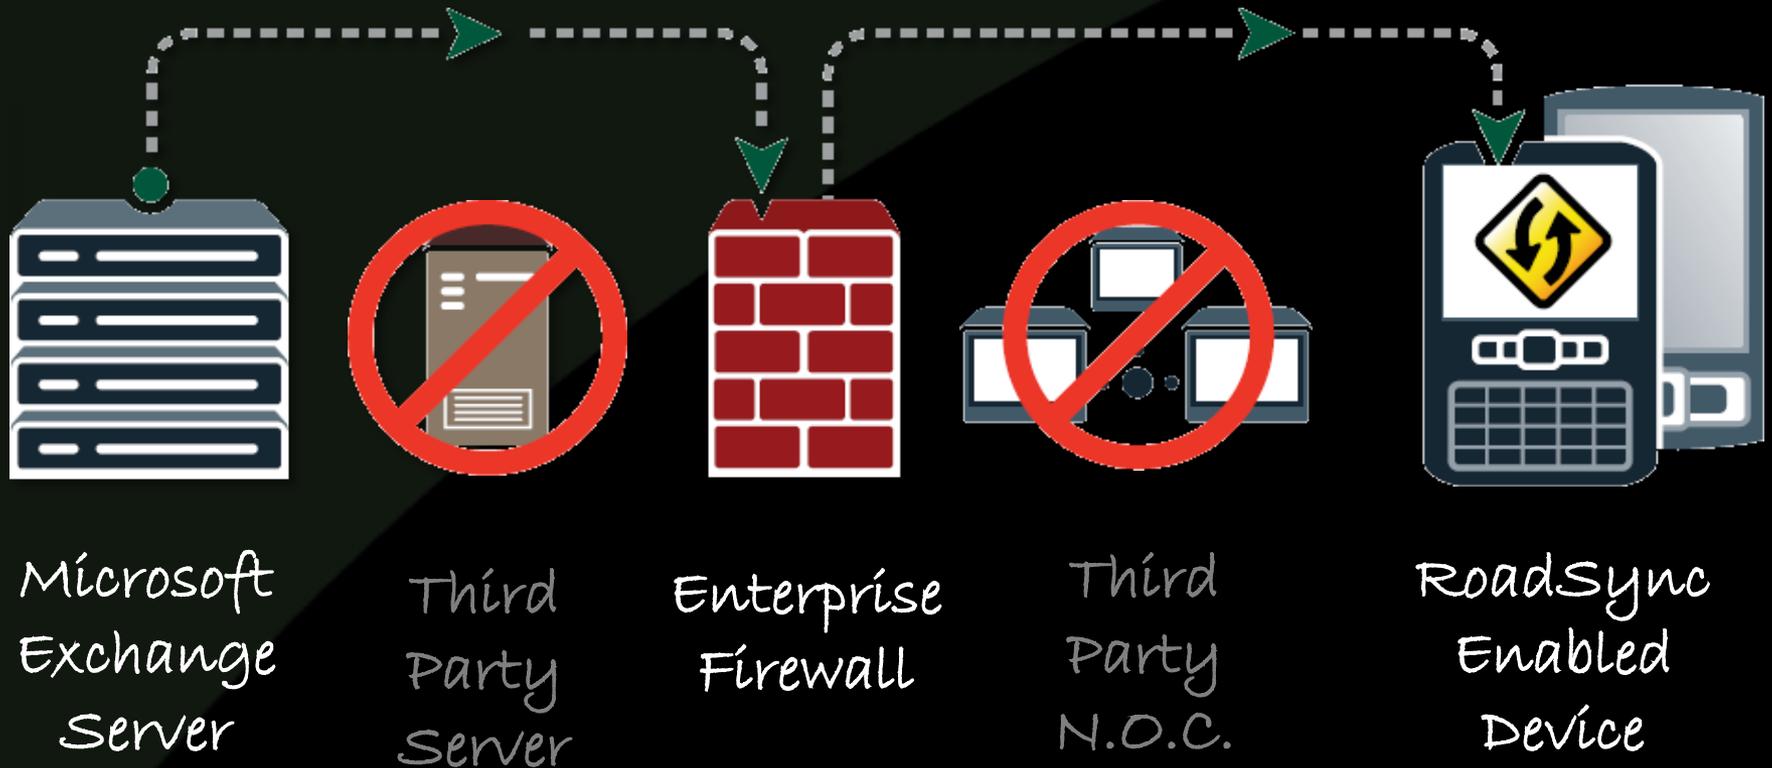

Customize your date ranges, message sizes, sync schedules, e-mail signatures, notifications and more

Start & stop Push, check for updates and give product feedback in the main RoadSync app

\*Auto-Discovery requires Exchange Server 2007 or higher. If RoadSync can not locate your settings, you may need to manually enter your user name, password, server address and domain. If you do not know these settings, please contact your IT Administrator.

# How It Works

Uses the Exchange ActiveSync protocol licensed directly from Microsoft

# More Info
